LA RENAISSANCE  
DES APPELLATIONS - ITALIA

“AWARENESS OF THE ENVIRONMENT,  
TRADITION, QUALITY, DUTY TO PRESERVE  
WHAT IS AROUND US”

Musella lies outside Verona: one of the most beautiful, historic and unique landmarks in the Valpolicella region. Long famous for its thriving viticulture, Musella with its 35 hectare vineyard site and cellar provides a splendid example of what may be achieved when the passion and respect of the land are integrated. The family passion and history in making Valpolicella and Amarone encourages the best from the ancient viticulture tradition of the area and allows the particular microclimate of Musella to be expressed. The dedication in the vineyards and the wine making choice made in the cellar successfully achieved the ambition goal of enhancing the typicality of the grape varieties of Verona.

The winery is certificated Demeter - Biodynamic since 2014.
